

Hull and Leeds – A Tale of Two Restorative Cities

Restorative Practice and Family Group Conferencing

Thursday 8th & Friday 9th November 2012

HULL CENTRE
For Restorative Practice

About the conference

Mercure Royal Hotel, Ferensway, Hull, HU1 3UF situated in the centre of Hull, outside the railway station and just off the A63/M62

This conference is for all agencies interested in using Restorative Practice and Family Group Conferencing in their work. It is an opportunity to showcase excellent practice in the UK and beyond and to share experiences and lessons learned. This is a conference for everyone – managers, leaders, academics, practitioners and policy makers across all disciplines. This year we are including accounts of work in Hull and Leeds to become restorative cities, including practice from police, education, social care, community and voluntary organisations, youth justice, those working with young people categorised as NEET and many more.

This two day conference features experienced and inspirational plenary speakers including Paul Nixon and Mike Doolan, pioneers of family group conferencing, and a wide variety of workshops across all sectors.

Details of workshops will be available on the website and participants will be able to choose which they wish to attend on the day.

Availability is limited so book early to secure your place. Conference presenters will benefit from a subsidised place at the two day conference. For details contact Pauline Winn at admin@hullrestorativepractice.co.uk
